

MIDDLESEX CANAL ASSOCIATION  
INVITES YOU TO ATTEND  
OUR SPRING LECTURE:

# TIDE MILLS

HOW THEY WORKED AND WHERE THEY WERE LOCATED

Earl Taylor, President of the Dorchester Historical Society and a Founder of the Tide Mills Institute will delve into the history of these forgotten pieces of American industrial history. While most Boston area tide mill sites are hidden by development and other landscapes changes, Taylor will show that we can still see how they worked and explore their locations through old maps and documents.

**SUNDAY, MAY 5, 2019 1:00PM**  
**MIDDLESEX CANAL MUSEUM**  
**NORTH BILLERICA, MA**

Join us for camaraderie and refreshments after the lecture
